About Me

B.Tech CSE Student | Frontend Developer | C++ & DSA Enthusiast

Computer Science student skilled in **C++**, Data Structures & Algorithms (**DSA**), **HTML**, **CSS**, **JavaScript**, and **React**. Solved 90+ LeetCode problems and passionate about building responsive web applications and enhancing user experiences through modern frontend development.

EDUCATION

NIMS University, Jaipur

Bachelor of Technology (B.Tech) in Computer Science & Engineering
Current CGPA: 8.24/10.0

Jaipur, Rajasthan, India
Aug 2023 – Jun 2027

PROJECTS

Spotify Clone

HTML, CSS, JavaScript

<https://github.com/RAJMAHMMAD0786/Spotify-Clone>

- Developed a responsive Spotify-inspired music streaming web application with an intuitive user interface.
- Implemented core music player functionalities, including play, pause, next, and previous track controls using JavaScript.
- Optimized the application for consistent performance across multiple screen sizes and devices.
- Designed an interactive audio player to enhance user engagement and experience.

Swiggy Clone

HTML, CSS, JavaScript

<https://github.com/RAJMAHMMAD0786/Swiggy-Clone>

- Developed a responsive food delivery web application inspired by Swiggy with a modern and intuitive user interface.
- Designed and implemented restaurant listing and menu browsing pages for enhanced user experience.
- Created responsive layouts to ensure seamless performance across desktop, tablet, and mobile devices.
- Improved usability and navigation through interactive UI elements and clean design principles.
